PHOTONICS PRAGUE 2002 is the fourth conference in series organised by the Czech and Slovak Society for Photonics (CSSF). It follows the national meeting in Olomouc (1992) and international conferences at Prague (1995, 1999).

This Conference will bring together researchers, scientists and engineers involved in the development of photonics, including its educational aspects. There will be opportunity for both oral and poster presentations as well as for intensive discussions during breaks and a fruitful exchange of ideas.

We are pleased to welcome everybody interested in research on photonics, to the Czech capital, Prague. You will enjoy not only the conference atmosphere but also the beauties of wonderful so-called „hundred spires town“.

CONFERENCE TOPICS

1. Laser and Photodetectors in Industry, Imaging and Sensors
 2. Physics and Simulation of Photonic Devices
 3. Guided Wave Photonic Devices
 4. Testing, Reliability and Packaging of Photonic Devices
 5. Ultrafast Photonic Phenomena
 6. Photonic Crystals and Photonic Bandgap Structures
 7. Organic Photonic Materials and Devices
 8. Diffractive and Holographic Technologies for Photonic Systems
 9. Non-linear Materials, Devices and Applications
 10. Nanophotonics
 11. Educational Aspects in Photonics

PUBLICATION

The proceedings of the Conference will be published by SPIE. To ensure a high-quality Conference, all papers will be reviewed by the Session Chairs for technical merit and content.

CONFERENCE VENUE

The capital of Prague (1.200 000 inhabitants) is a historical, industrial and administrative centre of Czech Republic. The Conference will be held in the hotel KRYSTAL, Evropska str. 2, Prague 6 – Veleslavin, where all conference facilities are available. This location is easily accessible from the city centre or from the airport by public transport.
